## Clinical Hypnosis Practitioner Course Booking form

The Clinical Hypnosis Practitioner course will equip the student with the background, theory and practice of hypnosis in the medical and therapeutic settings. The course is experiential and will involve an individual project to evaluate the efficacy of hypnosis utilising various techniques. The skills and knowledge gained can then be utilised for personal or professional use.

The use of hypnotic techniques within interpersonal communication is incorporated in this course, including the identification and evaluation of minimal and non-verbal cues from patients.
